Not covered under this warranty are counter tops, appliances, plumbing fixtures, etc. or the costs, including labor, to remove & reinstall materials & related components such as fittings, appliances, etc.

Furthermore, this warranty will not apply to cabinets damaged by misuse, neglect, abuse, acts of nature, exposure to extreme temperature or water or the effects of normal wear & tear.

Natural woods may vary in color, characteristics & exhibit subtle changes as they age. For example, painted frames may eventually have visible cracking around the joint area & cabinet colors may darken or lighten over time. Sunlight, smoke, household cleaners & other environmental conditions may also affect the color match over time. These variations are considered to be the nature of the material in relation to their environmental exposure & are not covered under this warranty.

1. To replace the affected component with a new component of the same style.

2. To replace the affected component & any other component(s) in the residential application to achieve a uniform appearance with a similar & comparable product style of the originally purchased style.

If components are replaced, Carriage House Premier Cabinets cannot guarantee that the finish of these replacements will exactly match the finish & appearance of the components in the residential application. This is due to the changes that occur during the wood's natural aging process, affecting its color & grain.
