VT INDUSTRIES CenterPointe™

bring the warmth of wood inside

the warmth of wood

beautiful and sustainable

Hevea and Acacia woods are harvested sustainably, resulting in less waste and reduced emission of greenhouse gases. You can feel good about bringing the beauty and warmth of VT CenterPointe into your home.

beauty more becoming

The natural beauty of VT CenterPointe is available in your choice of two wood offerings.

Hevea wood adds warmth and elegance, with either side of the countertop available to you, giving you more flexibility for a personalized look to match any design aesthetic. **Acacia** wood has a wood grain variation that brings unique beauty and sophistication. Like Hevea, either side of the Acacia countertop can be used. One side is light with dark grains and the other is dark with light grains.
